## Introduction

This guidebook is intended for use by flight instructors. If you are one of those, this guidebook is designed for you.

The Gold Seal Ground School is unquestionably the most sophisticated software-based ground training program in existence. It provides instructors with powerful and surprising capabilities that are absent from any other similar systems.

It is a knee jerk reaction among many involved in aviation to equate ground school products with companies such as King, Sporty's, ASA, and Jeppesen. That's unfortunate. The truth is that Gold Seal gives instructors more power to instruct than anyone else. King and Sporty's ground school products offer no built-in instructor support at all. Jeppesen and ASA do offer expensive "instructor versions" of their ground schools, but both pale in comparison to Gold Seal's Online Ground School.

This guidebook will show you, as an instructor, how to use Gold Seal power to instruct more effectively, communicate more effectively, market yourself more effectively, and earn commissions on student sales. And unlike the expensive options from Jeppesen and ASA, the Gold Seal Online Ground School is 100% free to instructors.

## What Is It?

The Gold Seal Online Ground School is a web-based program in ground instruction for Private Pilot, Single Engine Airplane. It is both a Knowledge Test prep product AND a Certification Test product.

Students can have one of two statuses: Registered or Enrolled

A Registered student has created an account and can freely test drive the Ground School. Registered students can take roughly a dozen of the lesson modules and can take all of the quiz modules. Their progress is tracked so that they can see which lessons they have viewed and can review all of their quiz attempts.

An Enrolled student has paid and has full access to the entire program for one year.

## Instructors join for free. This gives them the following capabilities:

1. Access to the full program. This allows an instructor to **fully evaluate** the training efficacy of the Gold Seal Ground School system before recommending it to his/her students.
2. Instructors are **listed in the national database** of instructors (page 14). This is a valuable marketing feature. Approximately one-third of students who join the Ground School have not yet selected a flight instructor. These students may browse the database by state, and see instructors along with their contact information sorted by city. (For security reasons, website visitors and members must be logged in to view the instructor database.)
3. Instructors can **see a list (“My Students”) of their students** with one click (page 9-10). This allows instructors to:
  - a. *See which students are Registered and which students are Enrolled*
  - b. *Communicate with their students via email*
  - c. *Monitor which lessons students have completed*
  - d. *Review and print student quiz attempts (even to the level of seeing which questions students missed)*
4. Instructors have the option to **receive emails with scores** each time a student takes a quiz.
5. Instructors can **receive cash commissions** when their students Enroll.
6. Instructors can **create a privately branded version** of the Ground School with their own personalized home page (page 11-12). This is available to individual instructors or flight schools (and allows an unlimited number of instructors). This makes an extremely powerful marketing statement!
  - a. Students perceive that the instructor or flight school has its own online ground school program.
  - b. The instructor receives an automatic email every time a new student registers. That student will then show up in their “My Students” list.

## How to Sign Up

As an instructor, you start the sign up or Registration process just like any other visitor. There are several routes to the actual sign up page. Once there it looks like this:

Enter your first and last name. This will be used by the system to verify your status as an instructor in the FAA database.

The email address you enter will be used for signing in, for emailings from the system, and will also be used by students to attach themselves to you. You can change this email later if you wish.

“Pilot Type” produces a drop-down menu. Select “CFI” as your Pilot Type.

“CFI’s Email Address” is only meant for students. When your students Register they should enter your email here. For your own registration, leave this field blank.

Select and enter your password twice. If you forget it later you can initiate a password reset from the Login page.

Next, click the blue button that says “Register for Free”.

After that, your profile page will open where you must enter some additional information.

Sign Up - Registration is Free!

\* First Name

\* Last Name

\* Your Email

Pilot Type Student Pilot

CFI's Email Address (optional)  ← If you have a CFI, enter their email address here so they can get email notifications about your progress.

\* Password

\* Password Confirmation

[Register for Free!](#)

Questions? Call 888-514-1945  
Monday through Friday

You are Registered at this point, but have not yet been approved for the free CFI access. On this somewhat long page you must enter some additional information. An asterisk to the left of a field identifies that field as required.

Enter your CFI certificate number. Enter the City and State that corresponds to the city/state recorded for you by the FAA. This is used to confirm your status as a flight instructor.

After you have been confirmed you may change the City and State to anything you wish. These show up in the Gold Seal CFI database. Students will find you based on the state you list and the city. (See page 13.)

Indicate whether or not you are a current Master CFI.

Indicate whether or not you are an FAA Gold Seal instructor.

(The Master CFI and Gold Seal indications will produce small icons next to your name in the CFI database.)

A website address is not required, but for your own marketing purposes, it is strongly recommended. If you don't have your own website, you may use a flight schools' website. Or, enter the URL to your Facebook or LinkedIn page. Having something listed will make you look more professional to prospective students.

A phone number is not required, but again, for your own marketing purposes, it will make you appear more attractive to students.

You should leave "Rec'v Student Emails" set to "Yes" initially. This will generate emails to you each time a student takes a quiz. Most instructors leave this on permanently.

Would you like to receive commissions when your students Enroll? This one is a no-brainer. Select "Yes", then indicate how you wish to be paid in the subsequently appearing fields.

Enter your password (for security reasons) then click "Update".

The screenshot shows a web form titled "Edit My User Account". The form contains several input fields and dropdown menus. Fields marked with an asterisk (\*) are required. The form includes fields for First name, Last name, Email, CFI Number, CFI City, CFI State, Pilot Type, I am a Master CFI, I am a Gold Seal CFI, My Website Address, Phone Number, My marketing statement, Rec'v Student Emails, Do You Want to Receive Commissions?, New password, New password confirmation, and Current password. There are also buttons for "Update" and "Back".

**Edit My User Account**

\* First name: John  
\* Last name: Doe  
\* Email: myemail@abc.com  
Pilot Type: CFI

\* CFI Number  
\* CFI City  
\* CFI State  
I am a Master CFI: No  
I am a Gold Seal CFI: No  
My Website Address  
Phone Number

My marketing statement or airports where I teach. Write this as a sentence. This is what students will see. (plain text or HTML)

Rec'v Student Emails? Yes  
Do You Want to Receive Commissions? No

New password: leave blank if no change  
New password confirmation: must match the 'New Password' above

\* Current password: Enter your current password and press the Update button below to commit your changes

CFIs may qualify for **FREE enrollment** in the Gold Seal Ground School. This gives you full access to the entire program, PLUS, it allows you to monitor your students' progress. It also enters you into the online CFI database. New students can search for CFIs within a state. This is an excellent way to grow your own training business.

If you don't wish to participate in the free program, change your "Pilot Type" (above) to either "Commercial" or "Airline Transport Pilot (ATP)"

**CFI Number, City, State, and Zip Code are required fields.**

**Website Address, Telephone Number, and Marketing Statement are optional fields.** These are shown to students who search for CFIs in your state. Any of these may be left blank.

If you don't have a formal website, add your Facebook or other social media page address.

If you wish to receive email reports of student quiz scores, set "Rec'v Student Emails" to "Yes". Otherwise, log in at any time to review your students' progress using the "My Students" button that appears in the main page.

**These two fields are only used if you wish to change your password.**

Update Back

After initially Registering, everyone (including Instructors) see the Main Menu page. Once you have been verified, your page will change.

The screenshot shows the Gold Seal Ground School Instructor Guide interface. At the top, a navigation bar contains the Gold Seal logo and several menu items: Ground School, Questions?, Profile, Instructor, Enroll Me!, Logout, and Find a CFI. Red arrows point from descriptive text above to each of these menu items. Below the navigation bar is a main content area with a blue background. It features a 'Private Pilot' header with a 'Help' button and a notification: 'Travis Voyles just scored 100% on the Aerodynamics 102 quiz!'. The main content is organized into a grid of six sections, each with a checkbox, a representative image, a title, and the number of lesson modules. At the bottom of the main content area are three buttons: 'Practice Quizzes', 'Library', and 'My Status'. Below these buttons are three numbered items: '7 Certificate of Completion', '8 Gold Seal Final Exam', and '9 FAA Knowledge Test Endorsement'. To the right of these items is a 'Happy Birthday Chuck Yeager' banner featuring a photo of an older man in a pilot's uniform.

After you have been confirmed as an instructor, your Main Menu page will look like this. The “Instructor” menu item will have four options: (1) My Profile, (2) My Students, (3) My Dashboard, and (4) Earn Commissions. You can see a list of students attached to you (i.e. those that registered and entered your email as their “CFI’s Email Address”) by clicking Instructor/My Students or by clicking the large white button labeled “My Students”.

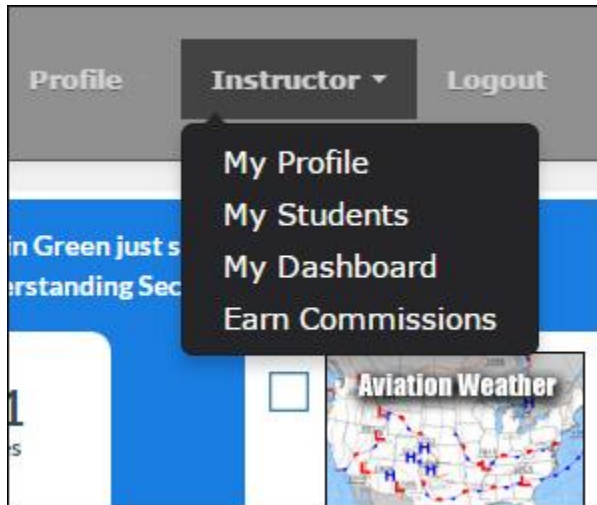

The screenshot shows the Gold Seal Ground School Instructor Main Menu. At the top, there is a navigation bar with the Gold Seal logo and the following menu items: Gold Seal, Ground School, Questions?, Profile, Instructor, Logout, and Find a CFI. The main content area is blue and features a "Private Pilot" header with a "Help" button. A notification states "Darrin Green just scored 100% on the Understanding Sectional Charts quiz!" and the user's status is "CFI Member - Full Access!". The main menu is organized into a grid of six sections, each with a checkbox, a representative image, a title, and the number of lesson modules: Section 1 (Getting Started!, 9 Lesson Modules), Section 2 (Your First Few Hours, 8 Lesson Modules), Section 3 (Skill Building, 11 Lesson Modules), Section 4 (Aviation Weather, 7 Lesson Modules), Section 5 (Real World Flying, 10 Lesson Modules), and Section 6 (Passing Your Tests, 2 Lesson Modules). Below the sections are four white buttons: "Practice Quizzes", "Library", "My Students" (with a pilot icon), and a large "My Students" button. At the bottom, there are three numbered items: "7 Certificate of Completion" (with a certificate image), "8 Gold Seal Final Exam" (with a calculator image), and "9 FAA Knowledge Test Endorsement" (with the FAA logo). On the right side, there is a "Happy Birthday Chuck Yeager" banner with a photo of a pilot.

## The Instructor Menu Item

When a student clicks the “Instructor” menu, he or she sees the contact information for his or her instructor (assuming that they have entered the email address for a listed instructor).

When you, as an instructor, click the “Instructor” menu, you will see a drop menu with these four options:

**My Profile** – This takes you to your account profile page where you can make changes. It does the same thing as the “Profile” menu option to the left.

**My Students** – This takes you to the page that lists all of your students. On this page you can send emails to your students, view their lesson progress, and view their quiz attempts.

**My Dashboard** – This takes you to a page where you can lay out your own branded version of the Ground School. You may enter a title (such as your name, or the name of your flight school), some body text for students to read, and a graphic such as your head shot or logo. This information is displayed on your custom homepage. (See pages 11-12.)

**Earn Commissions** – This takes you to a page that explains the commissions program. It allows you to receive commission payments every time a student Enrolls and indicates you as their flight instructor. You definitely should take advantage of this one! Click “Yes” in your account profile and indicate how you wish to be paid. That’s all there is to it. (See page 13.)

## My Students

Navigate to this page by either clicking the large white button labeled “My Students” or by selecting the appropriate option under the “Instructor” menu item. **As an instructor, this is your most useful page.**

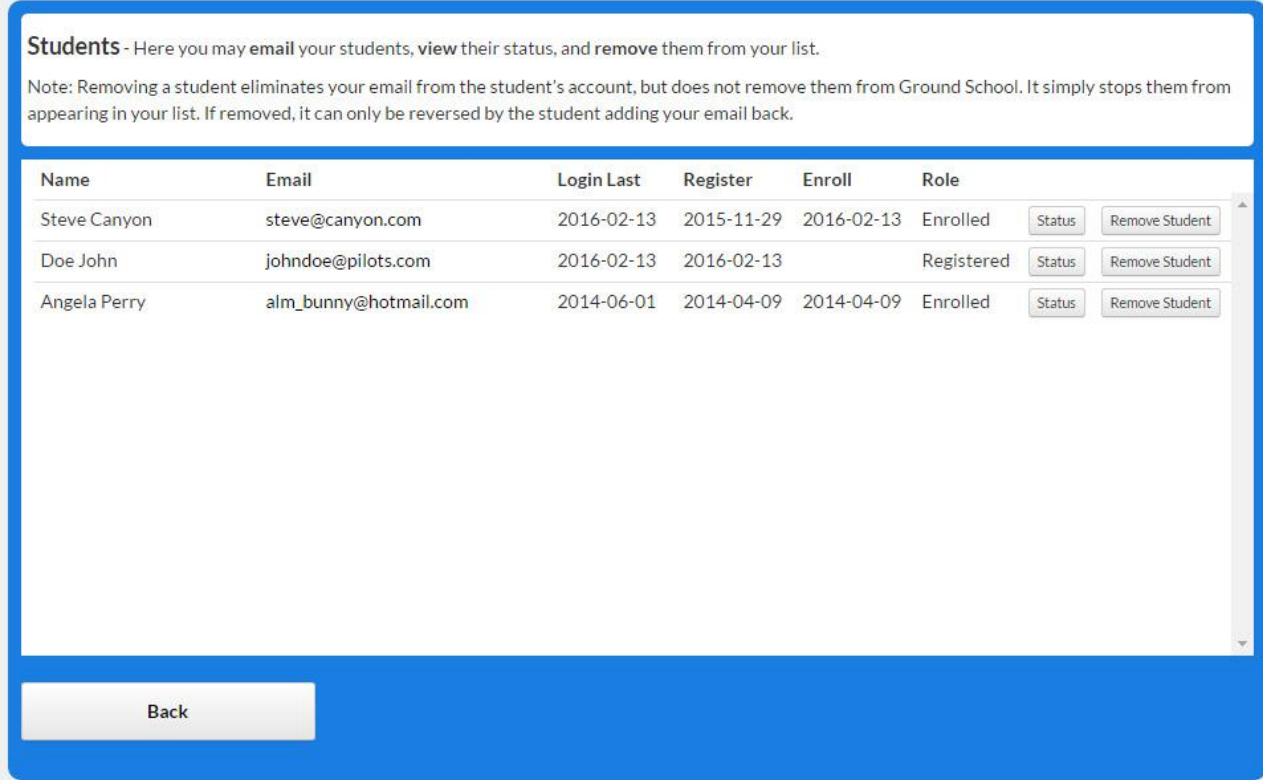

In this example, three students have indicated you as their instructor (they entered your email address in their profiles when they registered). John Doe is Registered. He can view some lessons, but can take all of the quizzes. Steve and Angela have paid and are Enrolled. They have full access to everything. You can monitor all of your students, even those just taking the free portions (i.e. Registered). This is an important distinction – *even if your students don’t want to pay, get them to Register so that you can at least monitor their quiz activity.*

Click the “Status” button to see a full page detailing each student’s progress. You will see all of the course lessons. Those that have been viewed will show a green check mark. Every quiz attempt will be shown by a small box below the lesson. It will contain the date the quiz was taken and the score earned. Click on the quiz’s box to see the quiz details. You may filter the quiz to see just the questions missed if you wish. This information may be printed out as a PDF so that you can take it to discuss with the student.

Over a long enough period you will accumulate students that are no longer active, even though they still appear in the list. These can be removed by clicking the button that says “Remove Student”. The student’s account will remain in the ground school, but your email address will be deleted, preventing them from continuing to show up in your list.

Click on any student’s email address to send an email.

On the next page you will see how the Status page for student Steve Canyon appears.

**Students** - Here you may email your students, view their status, and remove them from your list.

Note: Removing a student eliminates your email from the student's account, but does not remove them from Ground School. It simply stops them from appearing in your list. If removed, it can only be reversed by the student adding your email back.

Name	Email	Login Last	Register	Enroll	Role		
Steve Canyon	steve@canyon.com	2016-02-13	2015-11-29	2016-02-13	Enrolled	Status	Remove Student
Doe John	johndoe@pilots.com	2016-02-13	2016-02-13		Registered	Status	Remove Student
Angela Perry	alm_bunny@hotmail.com	2014-06-01	2014-04-09	2014-04-09	Enrolled	Status	Remove Student

Back

Clicking on the “Status” button for student Steve Canyon in your “My Students” page produces this report. Green checkmarks show lessons that Steve has viewed. The circles are filled in (or not) by Steve to help him flag lessons for further review. Three of Steve’s quiz attempts are shown here. Click any of them to see a full report of that quiz.

**Student Status:** Steve Canyon, Enrolled member since 13 February 2016

Gold Seal Ground School – Instructor Guide

Page 10

## My Dashboard

Define your personally branded Ground School home page by clicking the “My Dashboard” option in the “Instructor” menu. This makes an extremely powerful statement to your clientele – you are so professional that you have your own Ground School. No one but Gold Seal offers you this and you have to like the price. It’s Free.

The “Help” button at the top gives you a more detailed explanation of how to set this up (along with some examples of other instructor’s pages you can look at for ideas).

### Main Page Title

Select your title and its color. This will appear top center on the Ground School home page.

### Visitor Message Text

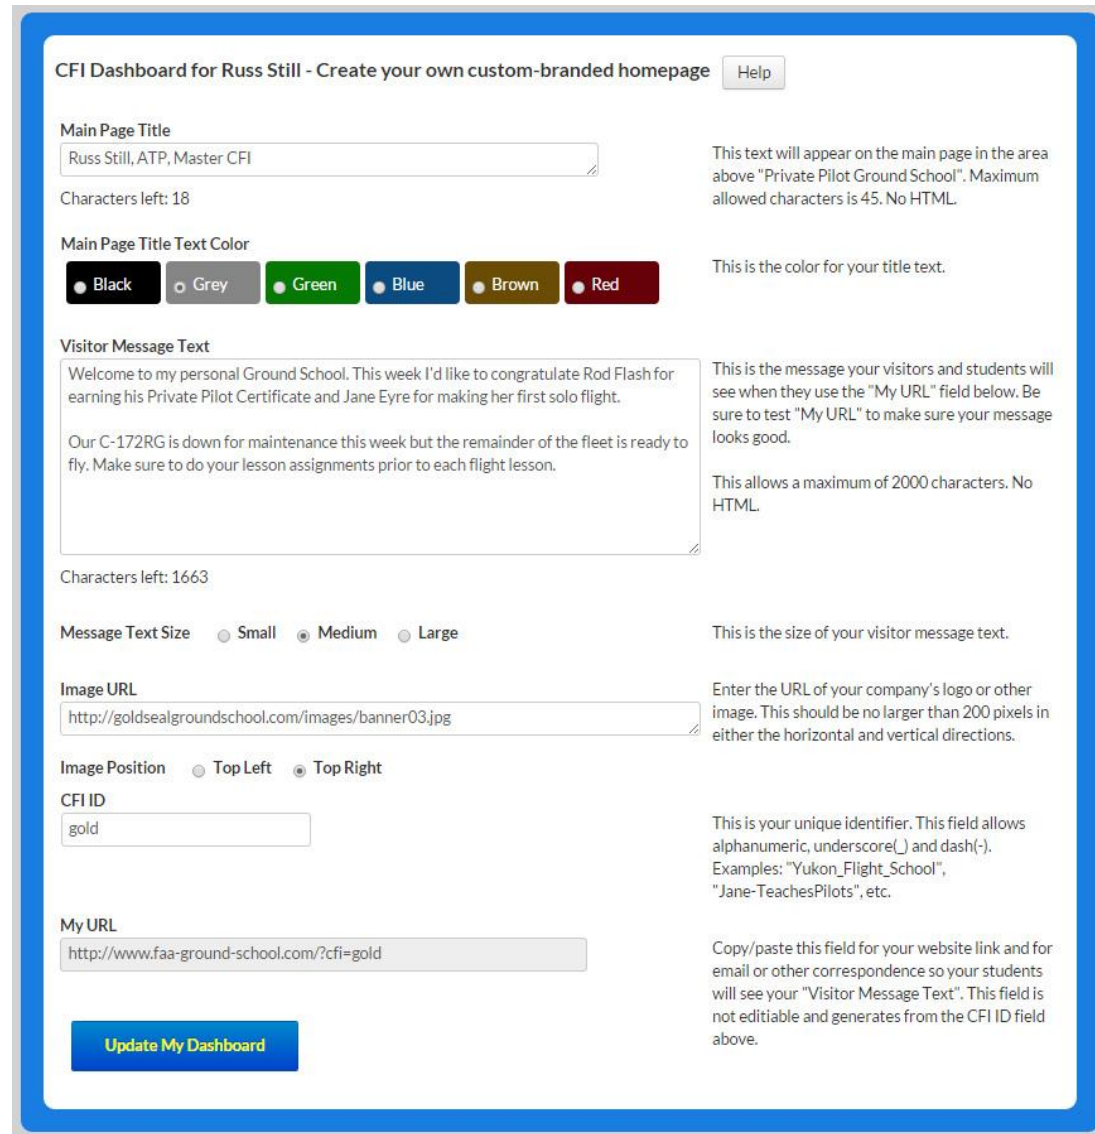

You can enter any text you wish here. You might use it to make announcements, or simply put up a generic welcome message.

### Image URL

If you wish to include an image (your head shot or logo), enter the URL here. We suggest that you keep the size down to no more than 200 pixels in either dimension. But feel free to experiment.

### CFI ID

This is a unique identifier that you define. It will be appended to the Ground School URL and shown in the uneditable box labeled “My URL”. This is the link you would put on your website and business cards (or simply give it out to your students).

The screenshot displays the "CFI Dashboard for Russ Still - Create your own custom-branded homepage" interface. It includes a "Help" button in the top right corner. The form is organized into several sections, each with a label and a corresponding input field or control. The "Main Page Title" section has a text input field containing "Russ Still, ATP, Master CFI" and a "Characters left: 18" indicator. To the right, a note states: "This text will appear on the main page in the area above 'Private Pilot Ground School'. Maximum allowed characters is 45. No HTML." The "Main Page Title Text Color" section features six color buttons: Black, Grey, Green, Blue, Brown, and Red. A note to the right says: "This is the color for your title text." The "Visitor Message Text" section has a large text area containing a welcome message and a note about a C-172RG being down for maintenance. A "Characters left: 1663" indicator is shown below the text area. To the right, a note explains: "This is the message your visitors and students will see when they use the 'My URL' field below. Be sure to test 'My URL' to make sure your message looks good. This allows a maximum of 2000 characters. No HTML." The "Message Text Size" section has three radio buttons: Small, Medium (selected), and Large. A note to the right says: "This is the size of your visitor message text." The "Image URL" section has a text input field containing "http://goldsealgroundschool.com/images/banner03.jpg". To the right, a note states: "Enter the URL of your company's logo or other image. This should be no larger than 200 pixels in either the horizontal and vertical directions." The "Image Position" section has two radio buttons: Top Left and Top Right (selected). The "CFI ID" section has a text input field containing "gold". To the right, a note explains: "This is your unique identifier. This field allows alphanumeric, underscore(\_) and dash(-). Examples: 'Yukon\_Flight\_School', 'Jane-TeachesPilots', etc." The "My URL" section has a text input field containing "http://www.faa-ground-school.com/?cfi=gold". To the right, a note states: "Copy/paste this field for your website link and for email or other correspondence so your students will see your 'Visitor Message Text'. This field is not editable and generates from the CFI ID field above." At the bottom of the form is a blue button labeled "Update My Dashboard".

After you have a custom Ground School page set up, visitors who register will automatically be attached to you (i.e. they don't have to explicitly enter your email address in their profiles). You will automatically receive an email every time someone new registers and you will see them in your "My Students" page.

Once a student has registered, he or she no longer has to go to your custom URL (the one that contains your CFI ID). Anytime they visit they site they will automatically see your custom version.

## Examples of Instructor Branded Pages

This screenshot shows the instructor branded page for Larry Bothe, Master & Gold Seal CFI & CFII at Private Pilot Ground School. The page features a navigation bar with 'Gold Seal', 'Enroll in School', 'Open Class?', 'Profile', 'Admin', and 'Logout'. Below the navigation bar, the instructor's name and title are displayed, along with a '10 Years' anniversary badge. A green 'Get Started' button is prominently placed. The main content area includes a welcome message, a photo of Larry Bothe, and a 'Get Started' button.

This screenshot shows the instructor branded page for Greg Collins, Gold Seal Master CFI at Private Pilot Ground School. The page features a navigation bar with 'Gold Seal', 'Enroll in School', 'Open Class?', 'Profile', 'Admin', and 'Logout'. Below the navigation bar, the instructor's name and title are displayed, along with a '10 Years' anniversary badge. A green 'Get Started' button is prominently placed. The main content area includes a photo of Greg Collins, a welcome message, and a 'Get Started' button.

This screenshot shows the instructor branded page for Michael Teninty, CFI at Private Pilot Ground School. The page features a navigation bar with 'Gold Seal', 'Enroll in School', 'Open Class?', 'Profile', 'Admin', and 'Logout'. Below the navigation bar, the instructor's name and title are displayed, along with a '10 Years' anniversary badge. A green 'Get Started' button is prominently placed. The main content area includes a photo of Michael Teninty, a welcome message, and a 'Get Started' button.

This screenshot shows the instructor branded page for Scott Pace, CFI at East Coast Aero Club at Private Pilot Ground School. The page features a navigation bar with 'Gold Seal', 'Enroll in School', 'Open Class?', 'Profile', 'Admin', and 'Logout'. Below the navigation bar, the instructor's name and title are displayed, along with a '10 Years' anniversary badge. A green 'Get Started' button is prominently placed. The main content area includes a photo of Scott Pace, a welcome message, and a 'Get Started' button.

## A Note About the Ground School URL

The official URL or link to the Gold Seal Ground School is **www.FAA-Ground-School.com**. However, sometimes that is confusing to explain because of the hyphens. **www.OnlineGroundSchool.com** is a redirect and can be used instead. The two are completely interchangeable and the OnlineGroundSchool.com link is probably easier for someone to remember.

## Earning Commissions

When a student Enrolls and includes your email address, *if you have indicated that you wish to participate in the commissions program*, you will receive a commission payment. It's a great way to earn money while you sleep. Make sure to indicate "Yes" to the Commissions Program question in your account profile. This is required.

The image contains two screenshots. The left screenshot shows the 'Profile' and 'Instructor' menus. The 'Profile' menu includes 'Edit My Account', 'Quizzes', and 'My Status'. The 'Instructor' menu includes 'My Profile', 'My Students', 'My Dashboard', and 'Earn Commissions'. A red double-headed arrow points between 'Edit My Account' and 'My Profile'. The right screenshot shows the 'Rebate Payment Fields' form. The question 'Do You Want to Receive Commissions?' is circled in red, with 'Yes' selected in the dropdown menu. Below this are fields for 'PayPal ID (Optional)' (steve@canyon.com), 'Address 1' (444 Drane Field Road), 'Address 2' (empty), 'City' (Lakeland), 'State' (Florida), and 'Zip code' (33811).

Edit your account profile from either the "Profile" or the "Instructor" menu.

To receive commission payments when new students Enroll you MUST select "Yes" to the question shown circled in red.

You must also indicate how you wish to be paid. PayPal is fastest and allows you to be paid monthly. Setting up a PayPal account is very easy and allows us to send your payments electronically. Enter the email address assigned to your PayPal account.

If you prefer to receive payments by check, enter your correct mailing address. Note that payments by check are sent out quarterly. Another good reason to provide a PayPal account.

## The CFI Database

This lists every CFI in the country that has signed up at Gold Seal. They appear sorted by state. A website member clicks “Find a CFI” in the top right corner of any page to access the database. The member chooses a state, then sees instructors in that state sorted by city.

This is an excellent marketing opportunity. Don’t pass it up. Write a nice marketing statement and add all your contact info so that potential new students can reach out to you. Update the information that appears here by clicking the “Profile” menu, and selecting “Edit My Account”.

CFI Name	Email	Website	City	State	Phone Number
